

# WHAT WE OFFER

## Utility Bills & Financial Support Access

Get help with living expenses. Government benefit programs can help people with a low income cover basic expenses like food, housing, and healthcare.

## COVID-19 - Pre-Testing Kits

Free to individuals seeking CAS services. CAS provides kits with tools that assess blood oxygen levels, body temperature, and more.

## Food Fit Program (Food Security & Nutrition)

CAS assists with weekly local food distributions. We can also assist with government programs like SNAP, other food banks, community fridges, and other services that can supplement your sources of goods.

## Community Outreach & Referral Services

CAS can immediately connect you to local services in your community whether they're vendors, city or state events/programs, our partner agencies and more.

## Emergency Home Care (EHC)

CAS offers up to two weeks of free home care to individuals working towards accessing Pennsylvania's waiver program.

## Home Maintenance & Modification

CAS helps families make their homes more accessible (ramps, hand rails, etc).

## General Health & Wellness/Mental Health

CAS can help you monitor and manage your physical and mental health by providing expert advice, referrals, and wellness visits.

## WHY CHOOSE US?

Our organization was built with families in mind and in heart. CAS Resources is a community center that connects individuals with their local neighborhood. We are simply set apart from anyone else for many reasons!

- ✓ **Our services & resources are at no out of pocket cost to you.**
- ✓ **There is *no obligation* to remain with our organization.**
- ✓ **24/7 team support and assistance.**
- ✓ **Personalized plans for each member that follow & benefit your lifestyle.**

## AND MUCH MORE.....!

If none of the resources we have listed fit your specific needs or situation, feel free to contact us directly to create a personalized solution for you.

# WHAT IS “CAS RESOURCES”?

CAS has created a platform that connects community residents to resources and services that they may not have access to on their own or that they need help with. Our platform comes with its own support team that will help you figure out what you need, how to get it and ensure that you continue to receive assistance; all through a personalized plan.

## HOW IS A RESOURCE DEFINED?

We define a resource/service as an ongoing source of assistance, information, or supplies that is meant to benefit you. This can include food banks, home health care, SNAP benefits, nutrition & diet advice, COVID-19 sanitation, utilities (heat, gas, electric, etc) support, legal assistance, and much more!

# TRUST OUR WAY THE CAS WAY

Operating as a community center for over 18 years, CAS prides itself and values its role as a means to connecting community residents to available resources throughout the Philadelphia region.

We are committed to providing high quality care, education, and services. Our goal is to reduce and/or eliminate high out of pocket costs to vulnerable families regarding essential needs and expenses. We specialize in assisting people so they can remain independent and worry-free.

“CAS Resources is THE solution built by the community for the community.”
